12	Type the text 'New Product Name'in 'Product Name'	The URL should be entered successfully	<p>The text should be typed successfully</p> 	Passed
13	Click on the element 'Product Description'	The click should be successful	The click is successful	Passed

Test Results

				
14	Type the text 'This is a new descripton Tofordf Tdorolff'in 'Product Description'	The URL should be entered successfully	<p>The text should be typed successfully</p> 	Passed
15	Click on the element	The click	Error Occurred	Failed

Test Results

	'Potential Impact'	should be successful	<p>cannot send data on the element with locator: //*[@id="PotentialImpact"]/form/div/textarea[1] locator_type: xpath</p>  <p>The screenshot shows a web browser window with the URL 'dev.mecp.jnj.com/admin-create-notification/productDescription'. The page title is 'MedTech Customer Notification Portal'. The user 'VINAY' is logged in. The page has a navigation bar with tabs: 'Details', 'Actions', 'Assignment', and 'Review'. Below the navigation bar, there are several sections: 'Notification Details', 'Description' (highlighted in red), 'Potential Impact', 'Product Images', 'Subject Product', 'Supporting Tools', and 'Signature'. The 'Description' section contains the text 'This is a new description', 'Tofufordf', and 'Toloroff'. The 'Potential Impact' section has a red asterisk and a text area with a rich text editor toolbar (bold, italic, underline, font size, font color, bulleted list, numbered list, link, unlink, undo, redo). The text area contains the placeholder text 'Type the potential impact of the field action...'. At the bottom right, there are two buttons: 'Save as Draft' and 'Save and Continue'. The Windows taskbar at the bottom shows the time as 12:52 PM on 1/30/2024.</p>
